

Model: Alcorcón Sur - Calculos - Industrias
List of model properties

Model property

Description	Industrias
Responsible	Administra
Calculation method	Industrial Noise - ISO 9613.1/2
Boundaries	(427500.00, 463600.00) - (431355.00, 466199.00)
Created by	Administra on 07/07/2004
Last accessed by	Administra on 12/07/2004
Original project	BP4 AlcorcónII
Original description	initial model
Imported by	Administra on 07/07/2004
Final	Not applicable
Declared final by	Not applicable
Meteorological correction	Apply correction, C0 = 5.0
Ground attenuation	General method, ground factor = 0.0
Angle of sight [deg]	2
Temperature [K]	273.15
Pressure [kPa]	101.325
Air humidity [%]	60.0
Air absorption [dB/km]	0.05 0.16 0.40 0.78 1.78 5.50 19.33 63.28 154.49
Detail level receiver results	Source results
Detail level grid results	Group results
Calculation optimization on	No

All shown dB values are A-weighted
